ENVIRONMENT

- Should countries face sanctions if they continue to pollute the air using outdated technology such as coal?
- Should oil companies be allowed to frack if it causes frequent and unnatural earthquakes?
- Should companies pay medical bills for families affected by a pollutant that can be linked to its facilities?
- Should school be canceled when the air pollution rises to a level that is hazardous?
- Should the sale of palm oil be banned?
- Should more governments incentivize their citizens to use renewable energy resources in their homes like solar, wind, etc.?
